* When the Fire Department requires fire sprinklers, a 1-inch meter may be obtained at the same rate as a 5/8-inch meter.

** Connection fees for meter sizes 3-inches and above will be determined by Zone 7 using the fee factor for maximum continuous flow rate.

These fees are based on the Maximum Continuous Flow Rate through a 5/8" meter as defined by AWWA C700 for Cold-Water Meter -- Displacement Type, Bronze Case.
Any changes to meter capacities will affect the above connection fees.
