* When the Fire Department requires fire sprinklers, a 1-inch meter may be obtained at the same rate as a 5/8-inch meter.

** Connection fees for meter sizes 3-inches and above will be determined by using the fee factor for maximum continuous flow rate.

Fees for meters other than those listed above will be determined based upon the AWWA maximum continuous flow rating for the brand, type, and size of meter.

REV 01/01/2022

These fees are based on the Maximum Continuous Flow Rate through a 5/8" meter as defined by AWWA C700 for Cold-Water Meter -- Displacement Type, Bronze Case.

Any changes to meter capacities will affect the above connection fees.
